

RECORDING INSTRUCTIONS

We thank you for contributing for the Save the Tooth campaign. Here's a list of instructions that will help you to smoothly record the video.

1. It is advised to tell another person to record your video
2. Please make sure there is adequate source of light
3. Please make sure there is no background noise and disturbance
4. Please make sure only you are in the frame (no patients or staff walking behind you)
5. It is sincerely advised to record the video in one take in order to avoid major editing (You can record the videos in takes too)
6. Please keep the camera in **Landscape** mode only
7. Please make sure that there are no suction units, dental chairs or any equipment in use when the recording is taking place (to avoid any background noise)
8. Please talk in a louder tone than normal so as to avoid any voice issues

For reference video, click on the link: <https://youtu.be/iuA-t4Z2aEY>
10. Please always look into the camera when you are recording the video

Sending the video:

Use wetransfer to sending the recorded video
click on the link: <https://wetransfer.com/> Please use the email siddique@dentistchannel.online for sending the video through wetransfer

Please also share a professional photograph, academic qualifications, name of the clinic, full address of the clinic, city, contact number & email id.

This video is towards patients. We urge you to express in the video just like how you would speak to your patients. We hope this video helps all patients looking for answers to a particular oral hygiene or dental problem

Your video will be published here <https://www.savethetooth.in/videos>

List of current speakers <https://www.savethetooth.in/speakers>

Also, doctors will get their **dedicated profile** link here

<https://www.savethetooth.in/videos?speaker=Dr-Saloni-Mistry>

We thank you for contributing the video for the campaign

With Best Regards,

Organizing team, Save the Tooth Campaign
